Autism Resources:

Reinforcement

PDMS Course ##43126

Description: This session will define reinforcement and its importance in classroom management. The reinforcement systems of first-then and token economy will be detailed for use in the classroom. Reinforcers and systems examples will be provided for consideration.

The American Heart Association offers an incredible resource with their [FREE Learning Series Webinars](#), available for access directly through their website. These webinars are perfect for health and physical education teachers, providing valuable insights into heart health, fitness, and wellness that can be incorporated into your curriculum. With expert-led sessions covering a wide range of topics, these webinars are an excellent way to stay informed, enhance your teaching, and empower your students to live healthier lives. Don't miss out—explore these valuable learning opportunities today!

Teacher Teach Teacher

These are PDMS courses designed by health and physical education teachers. You can register and complete the course and redeem continuing education credits.
